

coffee resources

We have searched the world for some of the best audio and visual tools to help those who are either starting out in the coffee business or are looking to develop their offer. From café bar design books to inspire you to training videos and books, we have endeavoured to cover the spectrum.

We want Espresso Warehouse to be a great source of tools to learn more about coffee and we are continually looking out for new and interesting materials - we'll keep looking and are always open to suggestions from our customers.

DCAFDES

posters...

We were fed up seeing photos of coffee plantations and art deco adverts for old coffee companies on the walls of coffee bars around the country and so we decided to do something about it!

Our new range of stylish posters will look great in any environment. And they're exclusive to us so they won't suffer from overkill. The perfect finishing touch to any coffee bar design!

coffee kids

millions of
people whose
lives are
centred
round
growing and
harvesting
coffee live in
conditions far
removed
from that
found in more
developed
nations.

This is a worthy cause that we like and support. We know that many of you and your customers are increasingly interested in supporting the growers of our daily brew and this is a great way to contribute.

The fact is that millions of people whose lives are centred round growing and harvesting coffee live in conditions far removed from that found in more developed nations.

Coffee Kids' mission is to "improve the quality of life for children and families who live in coffee growing communities around the world". They aim to do this by giving coffee growers the opportunity to create their own solutions to their own problems through education, establishing community banks, supporting the development of renewable energy sources and community development programs covering a whole raft of grassroots, sustainable, community-based initiatives.
